Why SmartaView

Most premium aluminium doors are sold through showrooms with deep markups baked into every quote. We do it differently. Direct from the British fabricator to your door, with transparent pricing online and the same product the showrooms sell. Just without the showroom.

Live online pricing

See the exact price as you configure. No callback, no waiting for a quote.

No showroom margin

Direct from the fabricator. Same premium product, materially better price.

Made in Britain

Every rooflight is fabricated in the UK using genuine Smart Systems aluminium.

Free UK delivery

Free mainland UK delivery on all orders, no minimum spend, kerbside on a pallet.

10-year guarantee

A comprehensive product guarantee, with the security of Smart Systems behind it.

Made to fit

Supplied fully fabricated and glazed, ready for your builder or installer to fit.

Why a rooflight

A flat roof is a missed opportunity. A well placed rooflight pours daylight into a kitchen, hallway, bedroom or office from above, where wall windows simply cannot reach.

Light from above

A flat rooflight pours daylight into a kitchen, hallway or bedroom from directly above, where wall windows simply cannot reach.

Engineered to disappear

The Infinity Frameless profile sits flush with the roofline. From inside, there is nothing but glass between you and the weather.

Walk-on rated

The walk-on range is engineered for occasional foot traffic, ideal as a feature in a terrace or roof garden.

Self cleaning standard

Self-cleaning glass is available across the range, breaking down dirt with daylight and rinsing clean with the rain.

Energy performance

Argon-filled sealed units with solar control low-E coating deliver U-values from 1.0 W/m²K, well ahead of Document L.

Standard or bespoke

Standard sizes from 500x500mm to 2500x1500mm, with bespoke sizes manufactured to order.

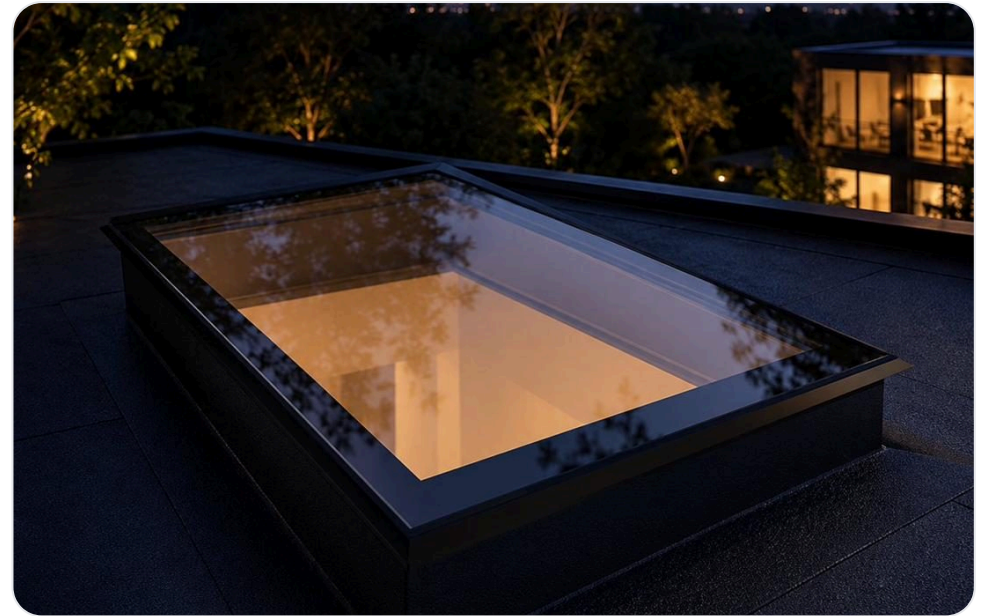

THE RANGE

The Infinity Rooflight range

Three families of rooflight off one engineered system. Framed for most projects. Frameless for the slimmest possible look. Walk-on where you want to keep the terrace above. All thermally toughened, all argon filled, all guaranteed.

- ✓ Three product families - framed, frameless and walk-on
- ✓ Sizes from 500x500mm up to 3000x2000mm and bespoke
- ✓ Thermal break aluminium frame, powder coated in any RAL
- ✓ Thermally toughened safety glass with self cleaning coating
- ✓ Solar control low-E coated glass as standard
- ✓ Argon-filled sealed units, hermetically sealed to BS EN 1279
- ✓ U-value from 1.0 W/m²K, ahead of Document L
- ✓ 5° integral pitch on flat roofs for natural water runoff
- ✓ Frameless option for the slimmest possible sightlines
- ✓ Walk-on option engineered for occasional foot traffic

YEAR GUARANTEE

Real homes, real light

From Cardiff Bay penthouses to coastal cottages, an Infinity Rooflight transforms how a room feels. Here are a few of our favourite places it has come to life.

THE LOOK

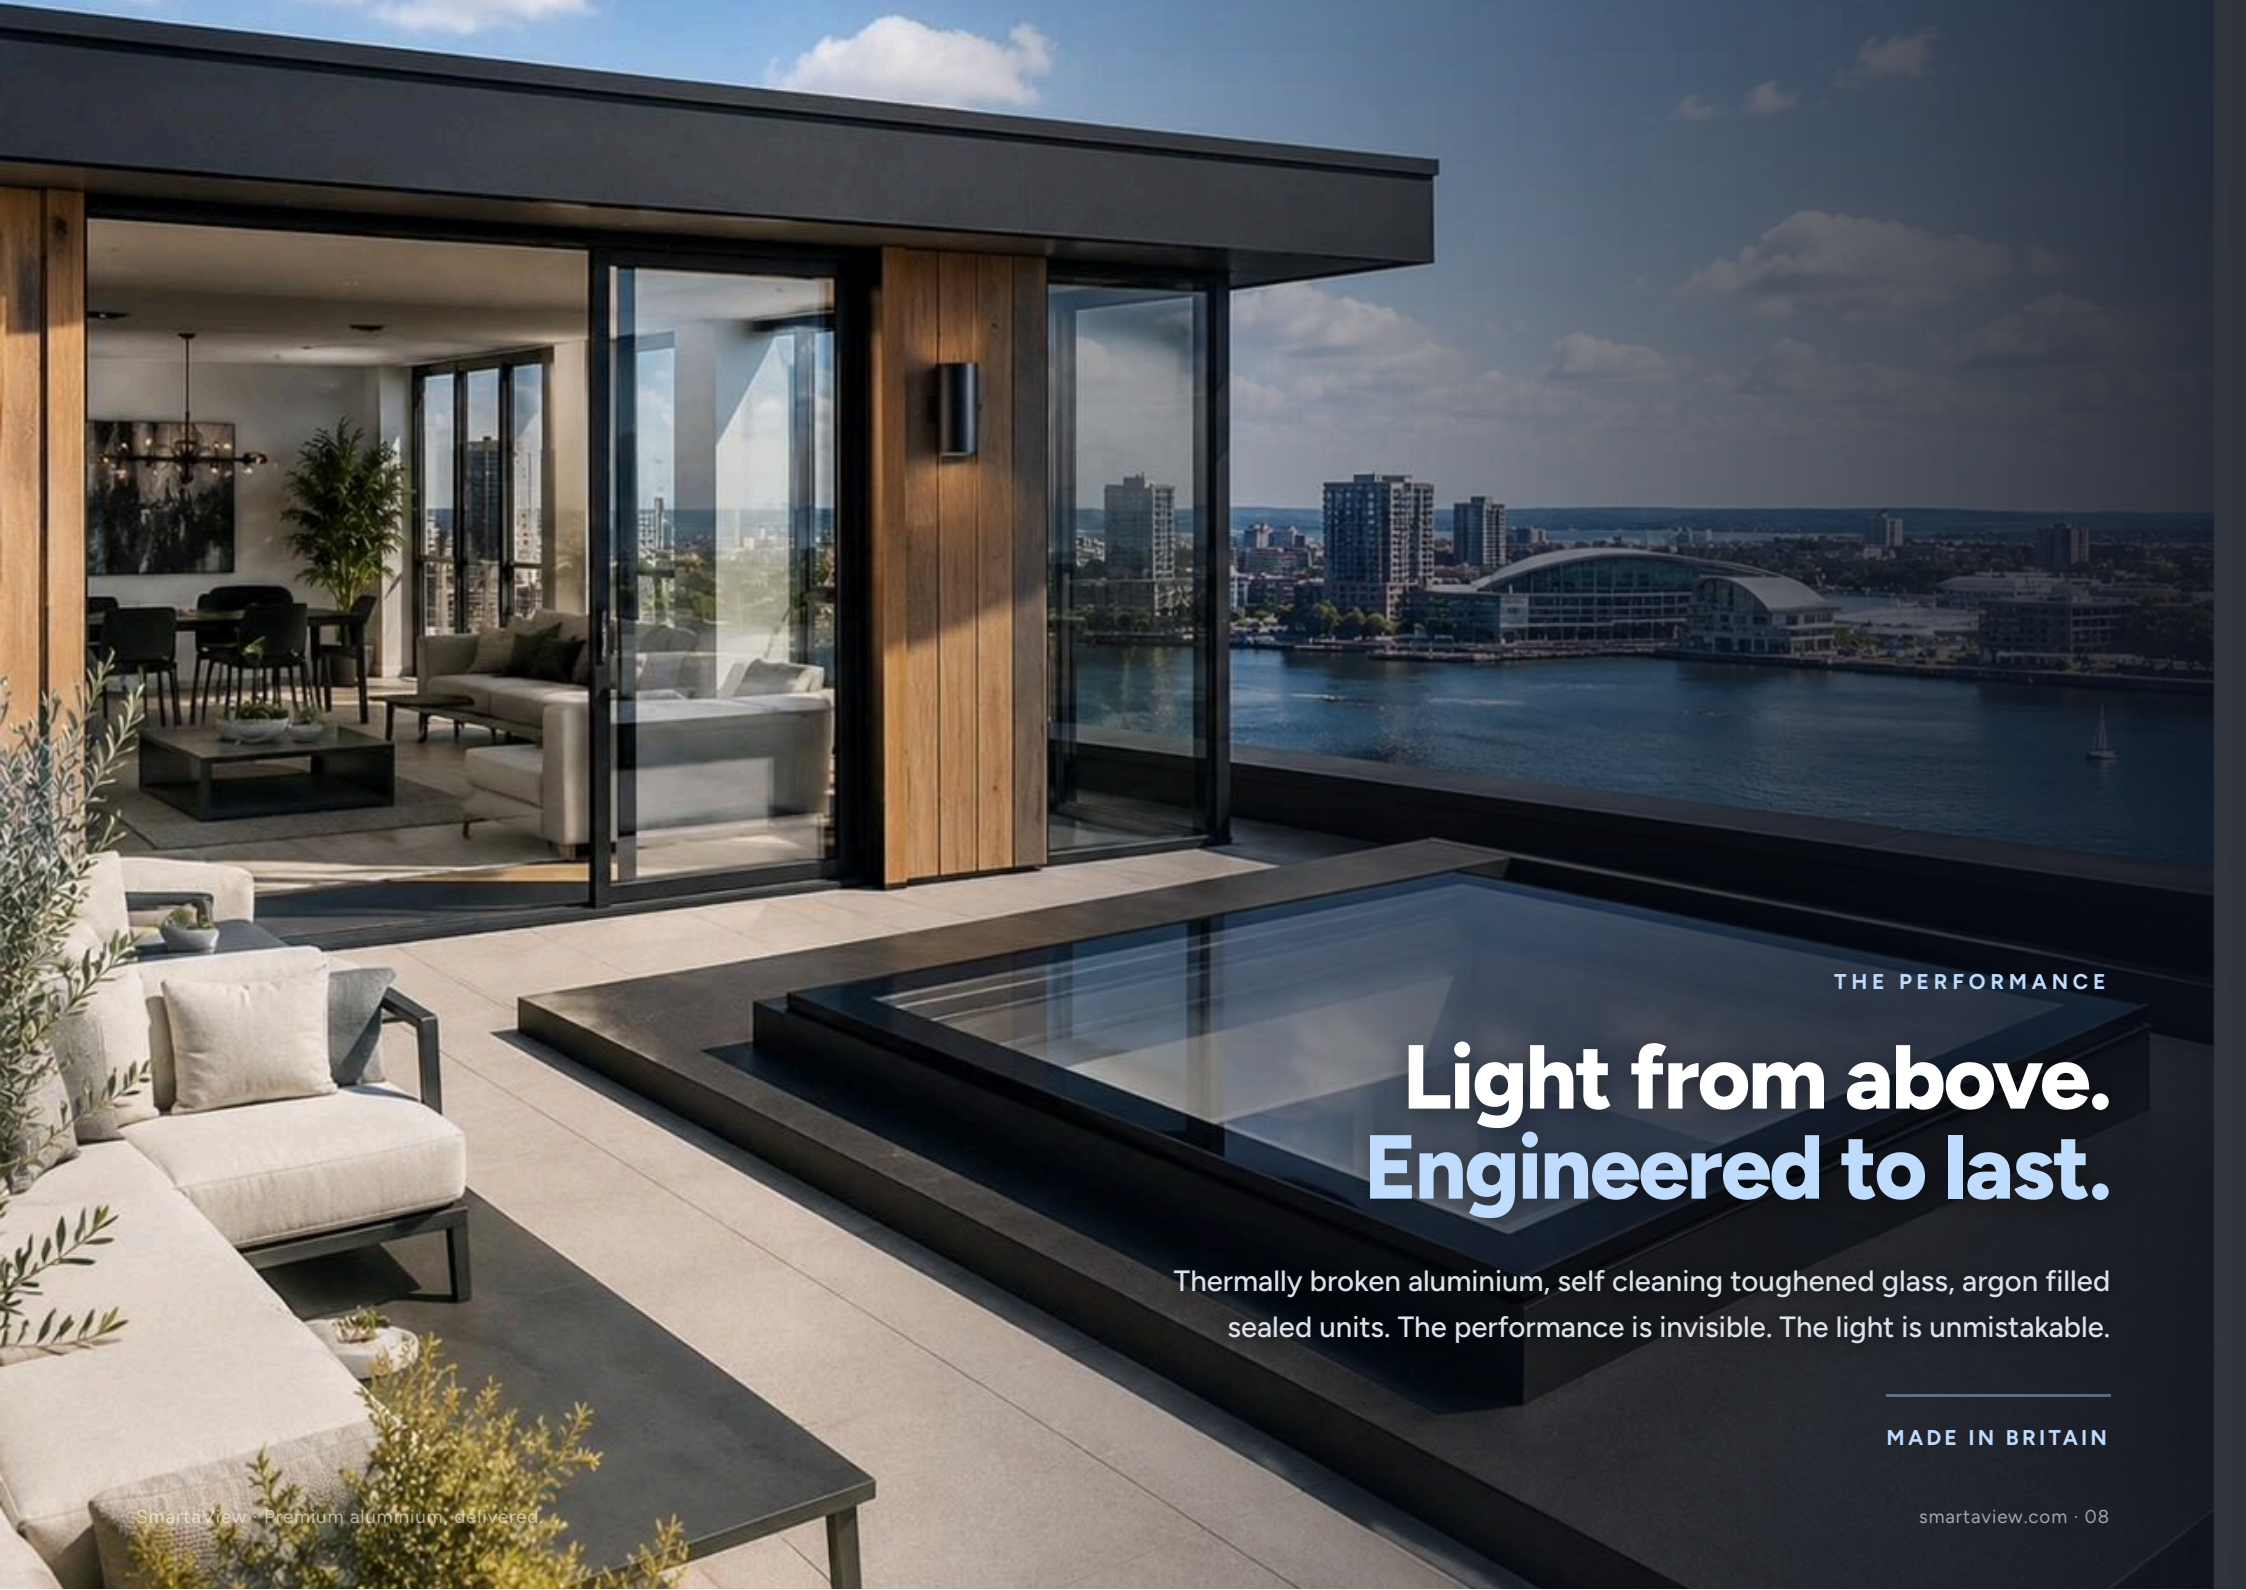

Less frame. More sky.

The frameless Infinity profile sits flush with the roofline. From inside, there is nothing but glass between you and the weather above. The roof simply disappears.

INFINITY FRAMELESS

SmartaView · Premium aluminium, delivered.

THE PERFORMANCE

Light from above. Engineered to last.

Thermally broken aluminium, self cleaning toughened glass, argon filled sealed units. The performance is invisible. The light is unmistakable.

MADE IN BRITAIN

The three rooflight types

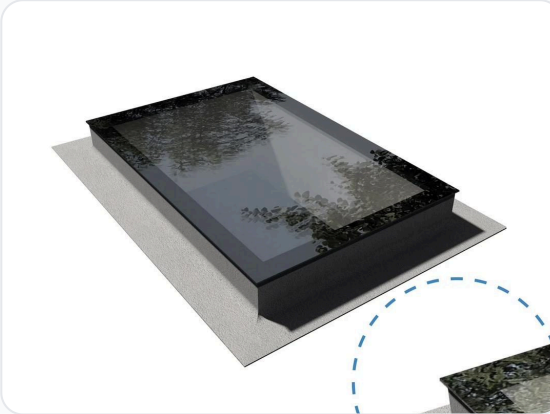

Three rooflight families off one engineered system. Pick the one that fits your project, or mix all three across a larger flat roof for a layered architectural moment.

Framed rooflights

The classic flat rooflight with a visible aluminium frame. Strong, secure and the most popular choice for most projects.

Up to 3000x2000mm

Frameless rooflights

Engineered to disappear. Just glass and the slimmest possible reveal. Statement modernist look.

Up to 2500x1500mm

Walk-on rooflights

Triple laminated glass rated for occasional foot traffic. Bring daylight into the room below and reclaim a terrace above.

Up to 2000x1500mm

THE GLASS

Choose your glass

Five glass finishes across the range, each thermally toughened, argon filled and sealed with Thermal Super Spacer technology. The matrix shows which glass suits which rooflight.

Clear Low-E
Maximum daylight, invisible thermal coating.

Solar Grey
Cool tint cuts glare and solar gain.

Satin Privacy
Soft diffused light, fully private.

Opaque
Solid finish for walked surfaces.

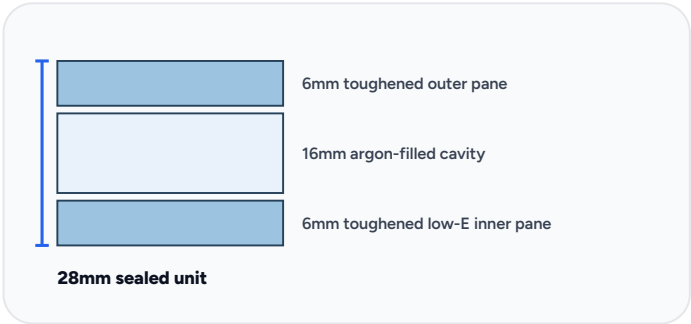

Anti-Slip
Textured surface, grip in all weather.

Glass finish	Framed	Frameless	Walk-on
Clear Low-E / Solar Clear The most popular spec across the range	●	●	●
Solar Grey Glare control on south facing roofs	●	●	●
Satin Privacy Bathrooms, bedrooms, overlooked roofs	●	●	●
Opaque Solid walked surface, light block	●	●	●
Anti-Slip Textured grip for terraces and balconies	●	●	●

Inside the sealed unit

1.0 W/m²K
DOUBLE GLAZED
6mm panes, standard spec, ahead of Document L.

0.5 W/m²K
TRIPLE GLAZED
Passive grade upgrade on framed and frameless.

Walk-on units use 33mm triple heat soaked toughened laminated glass, load tested to PAS 24:2016 and BS 6375.

Life is better in colour

Frames are powder coated for a durable, low maintenance finish that holds its colour for decades. Black and anthracite are the most popular choices for flat rooflights, white and matt finishes also available.
